

Nordic and Baltic collaboration – past and now

EOOSC-Nordic project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 857652

Study of Nordic and Baltic collaborations

- Case-based approach
 - NORUNet
 - European Spallation Source
 - EISCAT_3D Data Solutions
 - Baltic Grid
 - NeIC
 - Gardar System
 - Nordic Programme on Health and Welfare
- Lessons Learned & Implications for EOSC

Lessons Learned & EOSC Implications

- Shaping the Collaboration
 - Governance
 - Resource Sharing
 - Coordination & Policy harmonisation
 - Cross-border funding
- Implications for EOSC
 - Co-existence of several forms of governance
 - Sharing jointly funded vs. sharing national resources
 - Harmonisation of licenses and 3rd party access essential (National, EU)
 - Sensitive and health data a critical issue
 - Cross-border funding of consumable resources a challenge

Improving Cross-Border Collaboration
